

Wood is
our nature.

MBS | T I M B E R

More than a Sawmill.

OUR OFFER

In the heart of Carinthia, MBS Timber Handels GmbH is one of the leading woodworking industry companies, with global ties and a comprehensive range of wood-related services, seamlessly going hand-in-hand with people and nature.

QUALITY

For all our products, we require nothing but the highest quality. Of course, it also applies to our guaranteed deliveries and delivery dates. Our further strengths are many years of experience, comprehensive know-how on wood, state-of-the-art technology and logistics, as well as highly trained employees.

REFINED WOOD PRODUCTS

MBS Timber offers a comprehensive range of products for house building, among others, also a product range for the refining and further processing of wood products. Our production of profiled boards and laths, in addition to all standard glued and sawn timber products, has secured us a place among comprehensive providers for any woodworker, as well as pre-fabricated house manufacturers.

RELIABLE PARTNER IN WOOD CONSTRUCTION

Excellent quality and state-of-the-art services are our trademark for all MBS Timber products.

Renowned woodworking companies from Carinthia value their cooperation with MBS Timber for its top product quality, reliability, friendly and competent consulting services, as well as simple and on-time deliveries. MBS Timber has thus proven to be a reliable partner in wood construction.

Our products

SHUTTERING PANELS

MBS shuttering panels are high-quality, 3-ply wooden panels, made of spruce and fir wood. The panels are fully coated with a highly resistant melamine resin, giving them excellent protection. They are mostly used for paneling concrete constructions, but can also be used for other purposes due to their exceptional functionality. They are distinguished for their superior quality, durability and multiple use.

PLANED TIMBER

This product group refers to construction timber used for supporting elements that must meet certain criteria. Our planed wood product range encompasses the following: fibre board profiles, smooth edge boards, sauna profiles, tongue-and-groove wood.

GLUED TIMBER

This multi-layered product group is made of dried wood. Advantage: Cracks appear to a significantly lesser extent than with solid wood. These products are thus suitable for open roof structures, or other purposes where cracking is a disadvantage. From the glued wood product line, we offer the following variants: glued laminated timber, double/triple beams, construction solid timber.

LATHS

We offer a comprehensive range of lath products, adapted to your individual requirements. We offer a wide range of dimensions and quality - from rough-cut, sanded and/or planed.

SAWN TIMBER

Our sawn timber product range encompasses the following product types: prismatic wood products, rough planer, narrow wood products, packaging products, posts, laminated wood/double raw segments, raw solid construction wood, squared timber, raw wood segments.

BESPOKE

It is in our personal interest to provide the best consulting services possible, as well as to find individual solutions for your requirements. For detailed information on individual products, to receive a quote, or to place an order, please do not hesitate to contact us.

We are looking forward to your enquiry!

AUTOMATED PRODUCTION

Our production lines are highly automated. State-of-the-art machine processing technology relieves our employees of dangerous and monotonous tasks, so they can focus on meeting our strict quality requirements.
